

8 Weeks Online | Live Mentorship Sessions | Project-Based Learning

FRONTEND WEB DEVELOPMENT

BUILD MODERN WEB APPLICATIONS

NEW, HIGH-PAYING OPPORTUNITIES IN SOFTWARE

Software Development (Frontend, Full Stack Developer) is an instrumental job in any organization's core process. Developers are strong at coding and understand how the applications function at every level from the fundamentals of server processes to back-end programming as well as database architecture and front end design.

Among the most valued members of a company, they are able to translate between the layers of a system and are crucial for planning top-notch product performance.

As businesses and organization across the globe continue to enhance their offering of infrastructure application and easy-to-use products, the job market for software developers is set to increase by 22% by 2029 (Source: Seed Scientific),

This course is designed for learners to start a career in software development, with hands-on working knowledge of in-demand tools and programming languages. These skills will enable learners to start a software career post program completion

COURSE MODULES

Module 1: Introduction to Web Development

Module 2: HTML Basics

Module 3: CSS Basics

Module 4: JavaScript Basics

Module 5: Intermediate HTML

Module 6: Intermediate CSS

Module 7: Interactive JavaScript

Module 8: Capstone Project

Module 9: Create Portfolio of Projects

Module 10: Advanced Topics & Frameworks

Live Project & Internship

ABOUT THE PROGRAM

This program offers a transformative learning experience, designed to equip learners with the skills and support needed to secure a rewarding tech jobs. Through our innovative learning model we put you in the driver's seat of your learning journey. Flexibility is at th heart of this approach, allowing you to learn at your own pace while engaging with high quality content. We provide a learning environment where diverse perspectives thrives with real-world interaction that helps you develop essential teamwork skills

8 Weeks Online

Dedicated Program Support

Interactive Mentored Learning

Flexible Payment Options

Hands-on projects

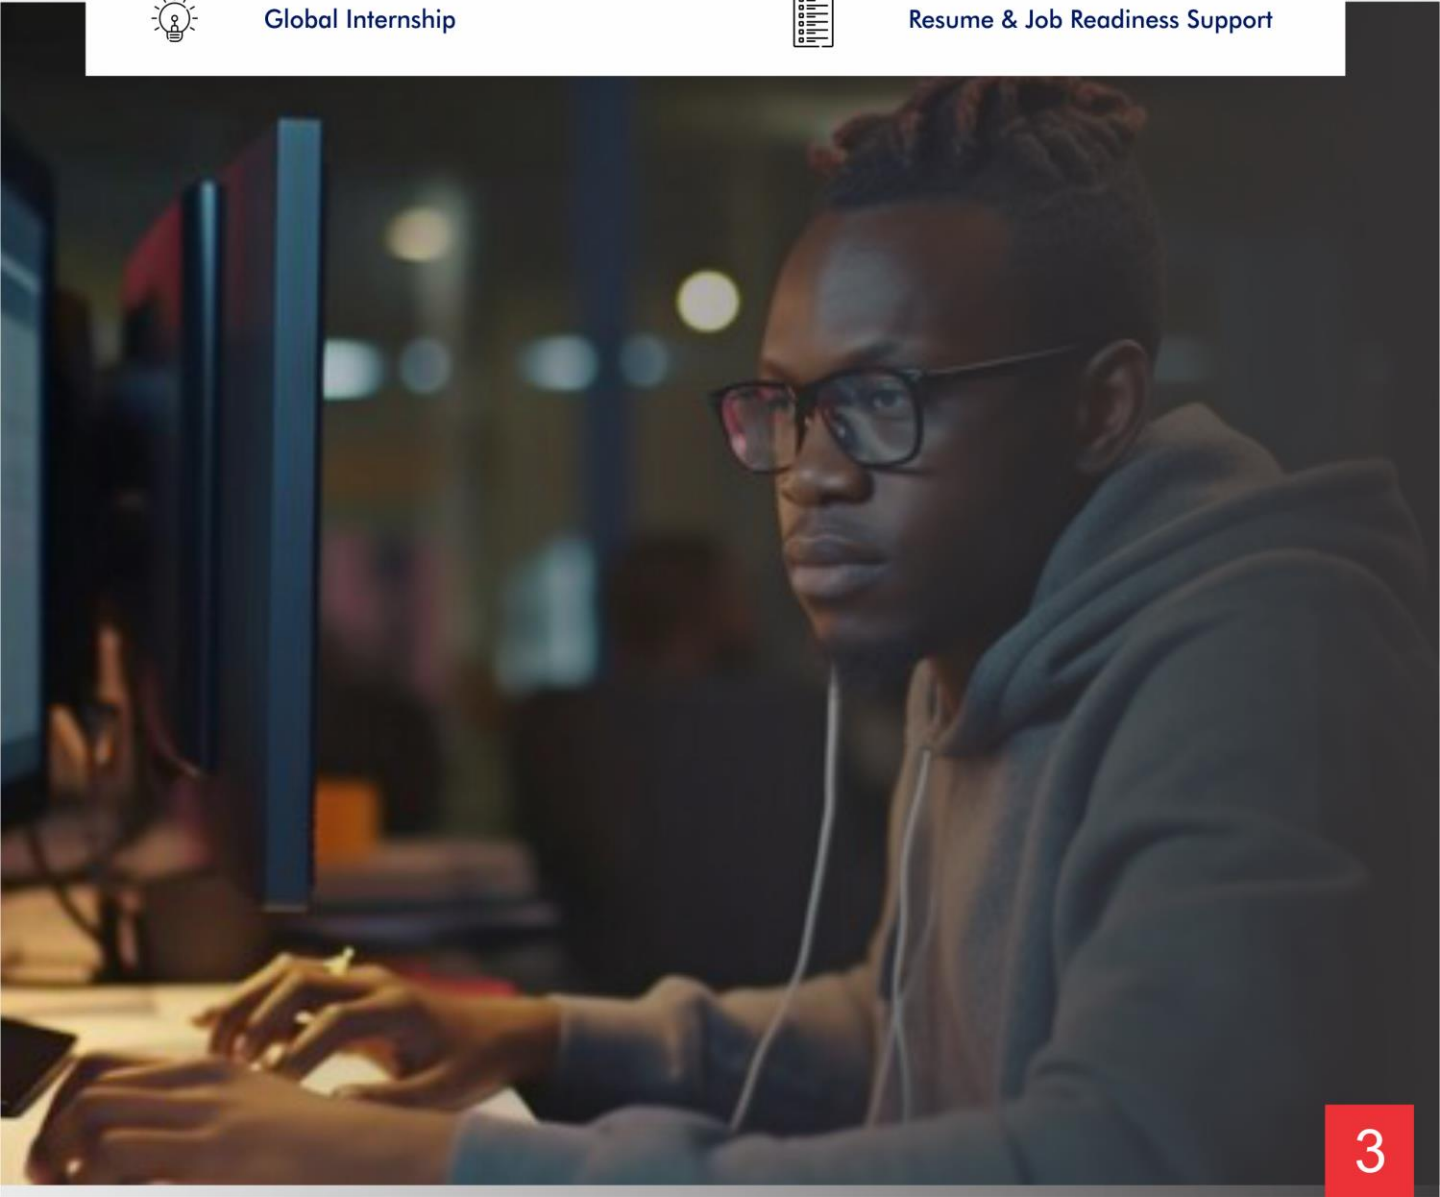

International Reference Letter

Global Internship

Resume & Job Readiness Support

CAREER SUPPORT

When you choose this program, you also get access to career guidance as you switch into various I.T roles across the globe

PROGRAM FEE

\$1500

REGISTRATION DETAILS
